Skills

- HTML & CSS.
- JavaScript.
- Typescript.
- React.js
- jQuery.
- @tanstack/react-query.
- tRPCs
- Express.js
- Next.js
- Node.js
- Database (relational databases sqlite, mysql, non-relational databases mongodb, ...).
- TailwindCSS.
- Framer-motion.
- Advanced React.js and Next.js newest server actions.

Education And Training

09/2023-current

Exploring, self-learning

As I gained the experiences working in an collaborative environment and the ability to learn and adapt new technologies from the Development course, I continued learning and exploring on my own by researching and doing hands-on full-stack projects, using traditional APIs design as well as trying out newer technologies such as Next.js server actions, server components.

Ryan Nguyen

Summary

I'm Ryan Nguyen, a passionate web developer who thrived in a rigorous 15-week bootcamp at Dev Academy. With a background as a Sous Chef, I bring leadership, teamwork, and attention to detail to my new career. Equipped with a Level 6 Web Development Training Scheme at Dev Academy Aotearoa, coding is my true passion. I find immense joy in crafting elegant solutions to complex problems and am eager to collaborate on innovative projects in the tech world. I am currently holding New Zealand Residence Visa.

Experience

Freelancer, contractor, content creator

New Market, Auckland

09/2023 – Current

After finishing the course from Dev Academy Aotearoa, I have been working on and also finished quite a few full-stack projects, using Next.js (a React.js framework), next.js server actions, express.js for back-end server, front-end UI with framer motion (a library to add animation to React components), TailwindCSS, and other UI libraries such as shadcn-ui, sonner, react-email/components, etc, to make a more user-friendly, responsive and improve user experiences as much as possible. A list of my recent projects can be found in my cover letter.

I also contributed to the content of a few react/nextjs youtube channels with a high amount of followers and currently one of the moderators of a discord react/nextjs community that has about 9k+ members.

I have rebuilt my portfolio with Next.js to show my skills in problem-solving, improving products performance giving end-users a better overall experience with smooth animations, as well as using advanced React skills and newest Next.js server actions at an intermediate level: <https://ryannguyen-portfolio.vercel.app>

Dev Academy Aotearoa - Full Stack Web Developer

New Market, Auckland

06/2023 - 09/2023

During this 15-week intensive bootcamp, I devoted approximately 60 hours per week to lectures, assignments, challenges, and side projects. This rigorous training has successfully:

- Transformed me into a proficient web developer.
- Helped me to be prepared and eager to continue learning and exploring new opportunities.
- Helped me to be ready to make significant contributions to projects as a collaborative team player.

Beside learning with projects I am also enjoy exploring other programming languages and frameworks, and solving algorithm problems/leetcode challenges in my free time to improve my problem-solving skills as well.

09/2023

Level 6 Web Development:
Information Technology
Dev Academy Aotearoa
Auckland

- Gained practical experience through pair programming and weekly group projects.
- Developed strong collaboration, communication, and problem-solving skills.
- Applied theoretical knowledge to real-world scenarios.
- Discovered the importance of adaptability and staying current in the field.
- Equipped with technical skills and a commitment to lifelong learning for a successful web development career.

Languages

English:

Full Professional

Dos Amigos Mexican Cantina - Sous Chef

Mission Bay, Auckland

02/2014 - 05/2023

- Exceptional leadership skills honed through orchestrating kitchen operations and managing teams.
- Strong ability to delegate tasks efficiently while maintaining a clear vision of culinary goals.
- Profound teamwork experience in high-pressure kitchen environments, fostering cooperation, communication, and problem-solving.
- Adaptability, meticulous attention to detail, and a commitment to delivering exceptional results.

These key points highlight my extensive culinary background, leadership, teamwork, and commitment to excellence, which I bring to my new career in web development.
